Timothy Muhammad
Owner & Chief Technical Officer of Supreme Technologies Group (STG)

Timothy Muhammad is the Owner and Chief Technical Officer of Supreme Technologies Group (STG), an all-in-one technology company providing IT-management, business class phone and Internet service, computer, cellphone and tablet repair to large and small community based businesses and organizations. Mr. Muhammad began his career 24 years ago at the age of 15 in Sacramento, California.

Drawn to technology at an early age, he would spend hours taking apart and rebuilding his mother’s personal computer, going on to troubleshoot and repair computers for various customers all over the Sacramento area. The demand for his services grew as his skills were ever sharpening and he wanted more. This yearning would eventually give rise to his first business endeavor, Crescent Computers.

Mr. Muhammad’s youth, ambition and knack for finding the source of a computer’s issue garnered him much favor in the community and led to a chance encounter with one of the only black men in the area who owned a computer networking company, Jacques Little, owner of Morgan Computer Service. At Morgan, Mr. Muhammad would hone his networking skills, often spending long hours after work learning to build mini networks, connecting computers with servers, and studying the IT field in-depth. This would go on for several years before he would strike out as the owner of his new company, Supreme Computer Service.

Supreme Computer Service grew to service businesses in California, Nevada and Idaho. And while Mr. Muhammad was in love with technology he found himself wanting more fulfillment. His love for technology is only surpassed by his love for his family and his love for his community.

He would find a way to merge them all by uprooting himself, his wife and their four young children to relocate to Chicago, Illinois to lend his technical talents to a much larger urban community and the Nation of Islam.

Supreme Technologies Group (STG) was started in 2012. Born of the desire to see urban businesses competitive in the technological age, STG’s goal is to make technology easily accessible and affordable to small and medium sized community based businesses.

Supreme Technologies Group services a variety of businesses in and around Chicago from local daycare centers and area Universities to outlying Municipalities. And unlike other technology companies, STG offers a full suite of affordable business class services including on-site computer repair, on-site and remote IT-management, cloud storage, data recovery, and business class phone and Internet service with a focus giving their customers the highest quality of service and a pleasurable experience.

THE COMPUTER STORE

While bike riding with his wife one day, Mr. Muhammad’s cellphone fell out of his pocket and dropped on to the concrete cracking the screen. This experience gave birth to STG’s Computer Bar.

The Computer Bar is STG’s walk-in computer store. Mr. Muhammad’s idea is that the inner-city needs its own establishment by which people can drop in to have their devices repaired quickly and with a level of quality and service that is unmatched.

For Mr. Muhammad, technology is his mission and his love offering to the inner-city, urban community.

Black Pages International salutes Timothy Muhammad for Building A Dynasty 2017-2032.

Eugene Dillanado
Publisher of The Black Pages International

Eugene Dillanado is the publisher, of Black Pages International, www.blackpagesinternational.com. BPI is a print, on-line and mobile phone directory committed to connecting consumers to African-American businesses in particular as well as other ethnicities who support our efforts with their dollars to empower our community.

“Our theme for the next two decades is: Building A Dynasty.” This means identifying dynamic individuals who know their power and purpose and are willing to use it to bring love, peace, health and wealth to the African-American community. Dynamic, loving and purpose-driven individuals who will not be cowered by the current climate of anger, fear, frustration and greed that is dominating the African-American community from coast to coast.

Historically, during such times heroes and heroines came forward with a vision and a Marshall Plan to rebuild and resurrect people that have been abandoned. A few of these heroes and heroines are featured in this directory. Read their stories. Imitate and emulate their accomplishments. We will continue to seek other dynasty builders who are erecting not symbolic, but brick and mortar institutions built from scientific systems and mathematic formulas. These individuals live in the Now. They know that only by thinking, speaking and acting in the Now can we create the past and the future.

If this is also your resolve and life purpose. Join us! Let you love, power and creative ability be felt from sea to shining sea. Join us as we bring love, peace, health and wealth to the African-American community. Who is more in need than us? Who are you expecting to do it but you?

Black Pages International salutes Eugene Dillanado for Building A Dynasty 2017-2032.

George C. Howard, Jr.
Attorney, Consultant & Author

George C. Howard Jr. is an attorney, counselor and author. His book, "50 Years at The Bar and Still Sober", chronicles the life and career of one of the most accomplished black attorneys in the country. Born in Kennett, Missouri in 1933, married to Catherine M. Howard now deceased, the father of five children, Mr. Howard has balanced his career and education with family, church and community involvement for eighty-four years.

Mr. Howard is a graduate of Central High School, Lincoln University and John Marshall Law School. He is a deacon and member of Emmanuel Baptist Church as well as a board member of Emmanuel Christian School. His fraternal and club affiliations include the Alpha Phi Alpha Fraternity, the Chicago Forty Club, the Elks, and the Chicago Druids Club.

However, it is his accomplishments as an attorney that are truly astonishing. They include defending the first Secret Service Agent to ever be indicted and tried by the United States of America; the attorney in the St. Dorothy’s Church Robbery case which caused the Bail Bond law to be changed in 1967; the defense attorney along with F. Lee Bailey in the Silas Jayne Murder case, 1973; co-counsel with Mr. Bailey in several other cases in subsequent years; defended Delbert Tibbs for murder and rape in the state of Florida; Tibbs was freed from death row and jail; selected as one of the ten (10) best criminal defense lawyers in the state of Illinois by the Chicago Lawyer magazine (from a poll of judges and lawyers); selected as one of the five (5) best criminal lawyers in Chicago by the Chicago Tribune newspaper; defended people in more than 30 states (Alaska to Hawaii); lectured in all of the law schools in the Chicago area and served as an instructor for the National College of Criminal Defense, (John Marshall Law School; University of Chicago Law School; IIT Chicago Kent Law School; DePaul Law School and Northwestern Law School.

George was also the Director of Revenue for the Village of Dolton, Illinois from 2000-2009, and has traveled to more than 17 African countries and most of the principal cities in Europe and South America. Not bad for a kid whose first job at eight years old was picking cotton in Missouri. To get a copy of his book soon to be a stage play and TV series "50 Years at The Bar and Still Sober" contact Mr. Howard by phone or e-mail below.

Founders of The Village Network, NFP (TVN), Warren & LaShawn Davis host the Chicago Housing Expo, an annual event to educate and empower consumers by providing as many home-centric resources under one roof. A fan of Home and Garden Television (HGTV) and other home renovation networks, Warren states, “We live and bring to life what our clients see on TV, whether its “House Hunters,” “Love It or List It,” “Fixer Upper” or “Property Brothers.” “We show our clients how not to just watch, but how to experience it!”

As seasoned brokers with an eye for luxury, Warren and LaShawn are highly communicative and professional—making this husband/wife team a pleasure to work with whether one is buying, selling, renting or renovating.

Warren, formerly a mortgage lender of ten years, keeps a strong handle on the financial side of the transaction. LaShawn, a licensed general contractor and home remodeler, has a great eye for design and value optimization to deliver to her clients, their dream home. This landed her a HGTV episode of “New Spaces,” (Episode “Bathroom for a Bull”) when she remodeled the home of then Chicago Bulls star Kendall Gill.

The Village Network was founded on the belief that if consumers are empowered with knowledge and resources, neighborhoods and communities where they live will improve, hence the motto, “Neighborhood Revitalization from Within.”

The Village Network advocates the Value After Rehabilitation (“VAR”) Initiative. Value After Rehabilitation is the appraised value of a property that has been remodeled or rehabilitated using a Consumer Renovation Program (CRP®). CRPs are little-known mortgages that fund home improvements based on the property’s future (rehabbed) value. However, as originally intended to revitalize neighborhoods and communities, they can actually reduce appraised value of the homes around it when used in a purchase/rehab. TVN has published a White Paper that explains the problem and outlines a long sought-after solution to devalued properties. The VAR initiative is neighborhood revitalization as it pertains to the homestead—using funds from the private sector banks.

In response, Illinois State Representative LaShawn Ford introduced Bill “HB” 0367 - The Value After Rehabilitation Appraisal Appraisal Act. This bill is the cornerstone of the VAR Initiative.

Hosted at the new Malcolm X College facility on April 22, 2017, ChicagoHousingExpo.com brings free information and resources to help consumers make the dream of living better at home as seen on TV, a reality. Mortgage lenders, legal help, credit experts, designers, featured products, delegate agencies, down-payment assistance, break-out seminars, and other home-centric resources to provide knowledge needed for home ownership, remodeling, and sustainability are expo features. Consumers get pre-qualified for mortgage or refinancing on-the-spot.

The Village Network’s greatest challenge is outreach. Individuals are encouraged to contact friends, neighbors, block club, Alderman, State Rep and Congressman, and encourage them to support State of Illinois Bill 0367, and to reach out to Warren and LaShawn for a free consultation, or to volunteer.

Black Pages International salutes Warren and LaShawn Davis for Building A Dynasty 2017-2032.
Nathan Kirkwood, Jr.
Founder of Nathan Kirkwood Associates and Taxes by Kirkwood
& Vice President of St Elizabeth Credit Union

Nathan Kirkwood Jr.’s business life can be simply stated. He is the sum total of his experiences. Beginning at nine years of age he sold Jet magazines and Chicago Defender newspapers from 6:30 – 8:30 am, before school. This work experience taught him, at a young age, the importance of getting up early for a job, selling a product and understanding how Black people appreciated him being of service to them.

Later at twelve years of age, he organized his five brothers to sell Jet magazines during the year, and snow cones in front of the A&P and National Food stores on 37th, 39th and 43rd Street during the summer months. This taught him family teamwork, and how working as a family could satisfy their daily needs and supply products of substance to the community.

These early experiences of getting an early start on a job, learning how income is produced, working with others, and being of service within the Black community were to be the foundation he was to carry to every job thereafter.

In college, while working at the U.S. Postal Service, he learned teamwork, chain of command, and interpersonal relationships. This gave him the confidence to embrace more challenging jobs as a regulatory examiner of financial institutions for the State of Illinois, and economic development officer for the City of Chicago. He also sold investment products through Waddell & Reed, and insurance products through Prudential Insurance Co.

This concentrated involvement in the fields of economic development, finance, insurance and sales would prove to be invaluable as a banker, and resulted in his elevation to the position as Vice President of Economic Development at Gateway National Bank at 79th and Stony Island in Chicago. From Gateway and staying in the Black community, he continued as a Banker at Pullman and later Highland Community Bank.

It was at Highland Bank that his dreams of utilizing all of his past experience came together, and the business firm of Nathan Kirkwood Associates and Taxes by Kirkwood was founded.

He knew that he wanted to be in the community that had supported him as a child of the Black Community. He knew he wanted to have his business in the community that as a banker he serviced through the financing of its homes, cars, and provided its children with college finances. He knew his business had to be where he shopped, lived and worshipped his God. He knew his business had to be easily accessible by foot or by car, i.e., the Black community on 79th Street. He knew the community would identify with him. He knew the business would be one that he wanted to be passed on to family and friends. Thus, by doing so, the business would last long after his days were gone.

To accomplish this, he knew he would have to do two important things: advertise and provide year round personal and friendly service. It was there that he has been able to brand the name Kirkwood over the Southside of Chicago.

Nathan Kirkwood Associates and Taxes by Kirkwood for thirty-eight years has provided accounting, income tax preparation, financial and estate planning advice and consultation. It is a family owned business being passed on to Nathan Kirkwood III, MBA and presently the #1 producer. He is ably assisted by his daughter and office manager Litha Herron. She has been with the firm for thirty years.

In addition to Nathan III and Litha, there are four hand-picked, highly trained professionals: Loretha Shortbey, Attorney James Hooks- CPA, William Hayes II, and Julian Valentine, who carry on the philosophy of Nathan Kirkwood, and provide expert service to the Black Community. This has been accomplished by one Black businessman who started, as a child of the Black community, and created a thirty-eight year old Black business for the community that will continue to be of service to the community.

Black Pages International salutes Nathan Kirkwood, Jr. for Building A Dynasty 2017-2032.

Donta Rice
Founder & CEO of Legendary Cuts, Inc.

"In order to be a Master, you must be a servant first!" We are all here for a purpose. At a young age Donta Rice was taught this and today lives it. In 1995 the conception and formation of who is known today as Dominant Techniques began when he spoke it into existence. His brother, Rasheed, vividly remembers him saying, "I'm 13 and by the time I'm 32 I will own my own empire, and by the time I'm 40, I will be someone Great!" Donta, at the time did not have a complete idea of what he would manifest, moreover, he was unaware of what life had in store for young, ambitious and purpose driven individuals. However, he was sure about success and was preparing for the future.

Sounds like a silver spoon story right? Well, in the beginning of life Donta was born with obstacles! Maybe this was the seed of determination. Born with Club Foot, he had to endure the struggle of surgical procedures and medical appointments for the first year of his life. Nevertheless, he persevered and began to walk and run before his other siblings. He was an All-Star shortstop for the Jackie Robinson West, Oakland A's baseball team, played basketball, football, etc.

Donta was taught self-sufficiency and was always employed and seeking employment at a young age, beginning at 9 years old. He tutored and taught computer literacy. Being born and raised on the South Side of Chicago presented a young man with challenges with gangs and misdirection. Donta, being determined to rise above gang influence, graduated from St. Benedict the African (Laflin Campus) in the Englewood area as Valedictorian; and ranked in the top percentages for Math and Science in the city. Yet again, more obstacles. He suffered a mild stroke at the young age of 13; but nevertheless his parents continued to stress the importance of a higher education. The stroke impacted his memory but he did not allow that to discourage him from reaching his goals. He attended Mr. Carmel High School, transferred and finished at the Chicago High School for Agricultural Science. He surpassed the stereotypes and plans of underprivileged areas by studying architecture. He switched majors and earned his B.S. in Industrial Engineering in 2003 from Southern Illinois University at Carbondale.

Donta’s was employed with many Fortune 500 Companies for almost eight years: developing master operating plans, conducting corporate audits, performing time studies, lease agreements, standing as a District Training Coordinator, managing and or reducing million dollar budgets, and many other projects. He continued to advance in life and in the corporate sector in spite of adversity and disparity.

Then the light bulb came on. He revisited his 1995 proclamation and Immediately realized that along the way, he had gotten off track. The housing crisis presented problems. Other obstacles arose, and his grandfather, one of his fondest teachers, transitioned. Through all the challenges, he gained insight as to why so much was happening to him. He realized it was to develop him for now and the future. In 2010 Donta completed Larry’s Barber College and received his Barber License. He did this as a tribute to his grandfather who owned a barber shop and pool hall on 35th street on Chicago’s South Side.

Currently, Donta is expanding at LEGENDARY CUTS INC where he is the CEO. Barber/beauty and wellness is promoted on a daily basis, as well as helping others to build leadership skills. He services the community and participates in several events local and across many continents; in an effort to reach out and share with the youth/adults his story, and re-energize or develop strength to meet the daily challenges of life. Some of the schools he has been associated with are: Roosevelt University, Beethoven Academy, Westinghouse High School. Donta was recently elected Vice President of Chartered Optimist International Club (OIC) in Chicago 2017. Through OIC, he provides the youth with activities that build character, leadership skills and discipline. With his “Boots on the Ground” and social media presence, he continues to inspire others around the world.

Shawn D. Porter
Owner and Operator of Porterhouse Heating & Cooling

Shawn D. Porter is the Owner and Operator of Porterhouse Heating & Cooling. While working as a truck driver for 11 years Shawn wanted a change. He decided to go into business for himself hoping for two things; he would show his sons that they have the power to control their own destiny and that he could support his family while building a company he could be proud of. He was educated at Environmental Technical Institute in Blue Island Illinois and founded Porterhouse in 2009. He started his company while still in school with just himself and one open bed pickup truck. He took on any jobs that he was offered. Now eight years later he has grown to 5 trucks and 6 employees. Top rated on Angie’s List and Home Advisor with an A+ rating from the Better Business Bureau Porterhouse is known for its quality customer service and providing its customers with the best heating and cooling solutions to meet their needs.

Marketing is key to the growth of Porterhouse. To better service his current customers and attract new ones in the south suburbs of Chicago Shawn utilizes social media, billboard and direct mail to reach his target market. Porterhouse has also flourished from referral business. “The best form of a thank you is a referral. It means that we are doing right by our customers and that is our main goal.” As Porterhouse continues to grow Shawn will be adding some special employees this coming February, two of his sons. Inspired by their father they have decided to follow in his footsteps and are currently studying at Environmental Technical Institute. Shawn continues to go back to ETI to talk to current students about the HVAC field and sharing his journey in entrepreneurship.

Founder and CEO of E.R. Spaulding, LLC.

What makes your heart beat? What does your soul seek? If answering these two vital life questions send you down a rabbit’s trail of disconnected thought, you need clarity and realignment. You need the kinetic connection of a soul reunited with its purpose.

Why don’t I recognize my company anymore? Why are employee retention and productivity rates low? Why isn’t my organization a happy place to work? Too often entrepreneurs understand their businesses as organizations and not organisms; those in charge of their operations work to achieve goals instead of manifesting the purpose nested inside of its corporate personhood.

E.R. Spaulding is a life and business Integration Strategist specifically for Evolving Leaders and Entrepreneurs who choose a transformational way of being, thinking and doing. She teaches a reimagined way to combine purpose + passion + prosperity + profit into your life, leadership, and business. Rooted in concepts that create partnerships and highly productive environments, Spaulding has been aiding disconnected employees and frustrated business owners in realigning their greatest assets to become industrious powerhouses they were designed to be, all while manifesting the best versions of themselves and creating exhilarating places to live, work, and play.

Having managed assets in excess of $12 million, created organizational growth in for- and non-profit sectors, and created sustainable business processes for companies throughout the United States, Israel, South Africa, and Ghana, E.R. Spaulding is the Founder and CEO of ER Spaulding, LLC. Through program developments such as the Procrastination Elimination Process™, a program designed to eliminate procrastination for good and become unstoppable and The Ascension Code™, a customizable strategic integration program, E.R. Spaulding provides exclusive group training and facilitation and executive coaching to support clients to thrive inside of their organizational cultures while maintaining clarity around their mission, vision, and profitability. She teaches how to holistically realign fragmented elements in order to create fully integrated initiatives — ultimately manifesting the best in every aspect of self and business.

She has lived on two continents and traveled to several countries and she has come to learn that at the core people are searching for the same thing: integration with their higher calling, connection with others, and ways to leave an impactful impression on the world. E.R. Spaulding has addressed and trained world-wide audiences by tele-seminar, live workshops, and webinars and looks forward to having the opportunity to support you in becoming highly focused and productive in order to deliver your personal brand of BRILLIANCE to those you were meant to serve.

Carl West
Publisher / CEO/MG Media / TBT News

My objectives as owner of a media company and founder of several organizations: Next Generation Leadership Council (NGLC) and TRUTH 4 Literacy after school mentor program, focusing on building critical thinking and leadership skills among high school and college youth. These principal entities are collectively geared to build long term capacity and create legacy or better yet, a dynasty within my business models for generational growth.

The media company (TBTNews) will grow into an online network, producing and presenting TV products, Works of Words content and entertainment properties for consumption.

NGLC will provide leadership training for long term planning as emerging new leaders capture leadership roles in business, community service, politics and education.

T4L is the mentoring arm of my brand and with T4L, the after school program will help mature and develop young minds and create ideas of possibilities.
